---

### Company Information

Established in 2000, Clinisupplies is a UK based medical devices company specialising in the manufacturing and marketing of products for the primary and secondary healthcare sectors.

#### *Vision*

*Access to precision medtech for every patient, globally*

#### *Values*

- Agile
- Inquisitive
- Collaboration

### What do we stand for?

#### *Same on outcomes. Better on price*

At Clinisupplies, we want to make a difference in healthcare. That means understanding our customers' needs and delivering on their biggest priorities. We recognise that the NHS needs to offer quality of care and save money – that's why Clinisupplies offers products that are designed to deliver value to customers. With a strong focus on Urology, Wound & Skin care, and Wound Closure, our products and services are developed to assist clinicians and patients, with practical solutions that provide high quality outcomes at an exceptional price.

### Role summary

In conjunction with the Clinical Nurse Manager, the Clinical Nurse Specialist contributes to delivering a high standard of care to individuals with complex urological / continence needs in a variety of settings. The Clinical Nurse Specialist will be responsible for managing a caseload of individuals with complex urological/continence needs.

The Clinical Nurse Specialist will also facilitate educational programmes as required and will promote Clinisupplies home delivery service for individuals requiring specialist products for the management of their bladder / bowel symptoms.
